Who are we? What is our mission?

IPDJ or Instituto Português do Desporto e Juventude is a governmental organization that has the task to implement in the whole national territory and at international level the youth policy. The PORTUGUESE SPORTS AND YOUTH INSTITUTE (IPDJ), results of the fusion in 2012, and succeeds in all the powers and obligations, of public bodies in the area of sport and youth, in particular the Portuguese Sport Institute, the Portuguese Youth Institute, the Foundation for the Dissemination of Information Technologies and Movilovem (Youth Hostels and Youth Card). IPDJ is widespread in the whole continental territory, with presence in the 5 regions (North, Center, Lisbon, Alentejo and Algarve) and their 18 district capitals

We have 8 areas of intervention as we develop several national programs about it – support youth organizations, citizenship and participation; health and healthy lifestyles, studies on youth; Non-formal education, social inclusion and gender quality and innovation and entrepreneurship and employment. At International level we have several youth actions. We are a member of CCIIVS and we have been an active partner on International Workcamps (especially through SCI) more than 30 years till now.

The IPDJ 2020 workcamp programme includes 19 camps for 329 volunteers as the board bellow:

Info about the Camp Organization (*name, aims, main activities, internet address, you can add the organization logo*)

Associação BioLiving is an award-winning non-profit NGO which motto is "Nature and Education for All". Our objectives are, among others, to Promote sustainability; Encourage environmental citizenship and public participation in the defence of natural values; Boosting the social economy; Promote inclusion, peace and solidarity, using education, natural resources and the protection of nature as their trigger; Provide monitoring and scientific consultancy in the fields of forest, biodiversity and environmental education; but essentially to demonstrate that nature belongs to everyone and to all.

Our team includes biologists, forest engineers, land planners, ecotourism and sports professionals, designers and marketeers, historians and professional environmental educators/science communicators. We work together for over 10 years, aiming at bringing nature and biodiversity to all. Only in the last 3years we have planted over 10000 trees, restored over 15ha of degraded habitat, financed 4 scholarships, and promoted over 500 collective actions of community/environmental volunteering. Know our work at www.facebook.com/associacaoBioliving

Info about the Camp (*aims, tasks and activities – work, leisure and visits*)

This camp will take place in Baixo Vouga Lagunar, in two areas of the Estarreja municipality, both of high ecological and social value. [BioRia](#) is a network of nature trails, a paradise for birdwatching, integrated in a Natura 2000 site. In Canelas, the LUSITANICA project has been running since 2016, aiming to convert a degraded area into a model forest for nature conservation and fire prevention, as well as to rebuild heritage buildings: an abandoned water mill and a historic fountain ('Fonte dos Namoricos') which is very degraded. It is an area much cherished by the population, but it requires a major intervention to return to being the social dynamic pole it was in the past. This project integrates environmental and social interventions promoting sustainability as a whole.

General objectives:

- Valorization and restoration of natural and cultural heritage;
- Promotion of sustainability, environmental awareness, and biodiversity protection;
- Promotion of intercultural relationships, good environmental practices, and citizenship;
- Promotion of intergenerational contact (some activities will have elderly people helping or explaining local traditions);
- Promotion of specific skills in the field of cultural and environmental heritage protection.

Specific objectives:

- Restoration of a degraded land in Canelas, with intervention in a forest, pathways and a fountain (and public presentation of work done to the local community);
- Participants will perform field tasks but also learn about nature conservation and engage in conservation-training activities, while getting to know the Portuguese fauna and flora;
- Litter gathering; cleaning walking trails; controlling invasive vegetation;
- Participants will also contribute to prevent forest fires by controlling shrubs and invasive vegetation;
- Build shelters and a pond for wildlife.

Tasks and activities:

- Ecological restoration work (control of invasive species and beneficiation of fauna and flora);
- Vegetation trimming and removal;
- Litter gathering and cleaning of walking trails;
- Improvement of local fauna, flora, and landscape;
- Encouragement of international exchange and exchange of experience;
- Presentation and discussion of the natural and social reality of the regions of origin of the participants;
- Promotion of environmentally and socially responsible attitudes and values;
- Development of action-training actions focused on individual and collective learning.

Leisure and visits:

- The amazing city of Aveiro, and its traditional '[moliceiro](#)' boats, [salt pans](#), and [colourful houses](#), and modern [university](#).
- The BioRia nature trails and aquatic sports;
- [Baixo Vouga Lagunar](#) Natura 2000 areas;
- Rare Portuguese rice fields and *bocage* habitat;
- Sketch'n Fun (*Pictionary*), art crafts, music, environmental movies night, traditional games, quiz night, talks, cultural and environmental tours.

Accommodation/Food (*kind of lodgement, number of meals, other services*)

Participants will sleep in a sports complex in Estarreja, in shared rooms with beds. There will be several separated rooms for boys and for girls. The complex has a sports locker room with hot water showers also separated by gender.

Participants have to bring their own towels and hygiene products. The organization will provide breakfasts, lunches and dinners. Lunches and dinners are prepared/cooked by the municipality's staff and served in a canteen, but some lunches will be served in the field (sandwiches, fruits, etc.). All canteen meals will be vegetarian.

Location (*you can add a map or a photo of the city*).

Info about the Camp (aims, tasks and activities – work, leisure and visits)

The camp will take place in the village of Teixeira/Atenor which lies in adjoining area the International Douro Natural Park (IDNP), about 5 Km from Sendim village (Miranda do Douro). Summer is often dry and characterised by notorious temperature swings – very high during the day (35°C) and relatively low in the evening (10°-15°C).

The **main goals** of this workcamp are enhance the biodiversity of our Center, and improve the landscape for generations of donkeys and visitors to come; to enable the discovery of the Miranda Plateau, a unique rural region, rich in natural beauty, biodiversity, culture and traditions; and bringing together the young participants and the local community, therefore promoting intercultural (urban/rural, international/national) and intergenerational (youngsters/the elderly) encounters and exchanges.

The tasks will focus in enhance biodiversity creating shelters, as birdhouses, bat houses or native pollinator houses, as well as the restoration of traditional dry walls that will transform themselves into ecosystems for amphibians, insects and a whole world of flora. Remove the rubbish and debris from streams caused by last winter's storm that affected our watercourses. Encourage work with the local community by developing activities in the villages of Teixeira and Atenor.

As for **leisure time**, there are several activities planned for the participants to get the opportunity to know the beautiful local landscapes, the rich cultural traditions and the local community as: trekking around Atenor with donkeys and explore the Miranda Donkey Valorization Center, trips through villages, museums and interpretations centers of Mirandese Plateau, nationality day, cinema nights and traditional games with the local community.

Accommodation/Food (kind of lodgement, number of meals, other services)

Basic housing with electricity, hot water, shower, WC, kitchen, dining room, bedroom (equipped with bunk beds) and barbecue area. Meals will be prepared by all the volunteers, taking turns, yet always accompanied by a cook. Breakfast, lunch, afternoon snacks, dinner, and night snacks will be provided.

The Center works as a shelter where animals receive all the care necessary for their well-being, guaranteeing them a peaceful and safe end of life.

The Donkey Shelter Center is subsidized by the British non-profit organization *The Donkey Sanctuary* (www.thedonkeysanctuary.org.uk) which has been working for more than 40 years for the protection of asinine and mule cattle around the world. *The Donkey Sanctuary* has offices in England, Italy and Cyprus, as well as operational centers in other European countries such as Romania, Greece, France and Portugal - Donkey Shelter Center. In addition to the support provided by *The Donkey Sanctuary*, our work is also managed by the AEPGA – Associação para Estudo e Protecção do Gado Asinino (Association for the Study and Protection of Donkeys).

Info about the Camp (*aims, tasks and activities – work, leisure and visits*)

The camp will take place in the village of Teixeira/Atenor which lies in adjoining area the International Douro Natural Park (IDNP), about 5 Km from Sendim village (Miranda do Douro). Summer is often dry and characterised by notorious temperature swings – very high during the day (35°C) and relatively low in the evening (10°-15°C).

The main goals of this workcamp are enhance the biodiversity of our Center, and improve the landscape for generations of donkeys and visitors to come; to enable the discovery of the Miranda Plateau, a unique rural region, rich in natural beauty, biodiversity, culture and traditions; and bringing together the young participants and the local community, therefore promoting intercultural (urban/rural, international/national) and intergenerational (youngsters/the elderly) encounters and exchanges.

The tasks will focus in enhance biodiversity, creating:

- A pond to attract more insectivorous animals helping us to reduce the number of flies in the Center as the donkeys;
- Shelters as birdhouses, bat houses or native pollinator houses;
- as well as the restoration of traditional dry walls that will transform themselves into ecosystems for amphibians, insects and a whole world of flora.

Remove the rubbish and debris from streams caused by last winter's storm that affected our watercourses. Encourage work with the local community by developing activities in the village of Atenor.

As for leisure time, there are several activities planned for the participants to get the opportunity to know the beautiful local landscapes, the rich cultural traditions and the local community as: trekking around Atenor with donkeys and explore the Miranda Donkey Valorization Center, trips through villages, museums and interpretations centers of Mirandese Plateau, nationality day, cinema nights and traditional games with the local community.

Accommodation/Food (*kind of lodgement, number of meals, other services*)

Info about the Camp (aims, tasks and activities – work, leisure and visits)

The **aim** of this workcamp is to improve the knowledge and the intervention facing climate changes at local level with the eradication of invasive species, creating the conditions for native species to thrive and to support the initial phase of the Community Center for Transition – a learning space for all interested in the Transition Movement (<https://transitionnetwork.org/>) .

The participants will have the chance to engage in activities for regeneration of 2 cities in Portugal (Viana do Castelo and Famalicão) and be part of the ongoing plans for local climate change by the Municipalities

With the implementation of the "Transition Portugal" it is intended to develop a taskforce to create a bigger impact in the nature and in the local community, which aims to protect and preserve the environment but specially to generate curiosity, sense of belonging and willingness to take part in the local habitants of these cities to continue to protect and develop activities.

The **main objectives** of this project are: to develop healthy habits and lifestyles in the participants; promote self-development, self-esteem, responsibility and autonomy, contributing to the acquisition of personal, social and professional skills; to sensitize youth to the importance of their participation in community development and preservation of natural resources; acquire and / or reinforce the language skills of the participants; European citizenship and sustainable growth to fight climate change.

The **tasks** of this workcamp are: eradication and control of exotic species, mainly Acacia Mimosa, Acacia-spike, Acacia Australia, Weeping beaches, Giant cane, at Ribeira de Anha Natural Monument; construction of awareness-raising artwork on the walkways next to the Ribeira de Anha Natural Monument; preparation of land for planting native species; Waste collection; Preparation of organic garden and composting center at the Community Center for Transition; Pond construction and rainwater harvesting system at the Transition Community Center; Artistic creation of informative panel presentation of the Community Center for Transition.

The workcamp will be hosted in 2 different cities of Portugal: Vila Nova de Famalicão for the first 6 days of the camp and then participants will be hosted in Viana do Castelo for the second part.

The participants will have the opportunity to join **free time activities** like swimming pool, cinema, and beach. They will take part in workshops of several activities and workshops related to biodiversity and climate changes and they will have chance to visit and get to know Vila nova de Famalicão, Viana do Castelo and Oporto.

Accommodation/Food (kind of lodgement, number of meals, other services)

Breakfast will be provided at the accommodation (schools) by the monitors and a rotating team among the participants. Since the work starts early (to avoid the hours of greatest heat), we intend to serve a snack midmorning to gain energy and delay lunchtime. The journey is continuous and at lunch, the food will be delivered by a catering restaurant at school by 14pm. During the afternoon, the association will provide snacks like yogurt, chocolate milk and croissant with ham and cheese. Dinner will be served at the accommodation at 8 pm (a warm meal to prepare for a comforting evening).

OFICINAS DO CONVENTO ONGD – OFICINAS DA CERÂMICA E DA TERRA [OC-OCT]

One of the aims of oc-oct is to understand tradition so to innovate from it, walking towards the future with an eye on the past. We are engaged in various fields since heritage, vernacular architecture and techniques, ceramics, sound, silkprint, typography, design, performance, video, new technologies applied to all of them, like 3d printers, laser cutter, electronics...). we are engaged with the local community with different educational projects and activities. our facilities are divided into 4 spaces: the headquarters in the Convent of São Francisco; a ceramic research centre; a workshop for the production of handmade tiles and fired bricks and finally the raw earth laboratory where we can produce compressed earth blocks and do research for other earthen architecture techniques.

Info about the Camp (aims, tasks and activities – work, leisure and visits)

TERRA[COTA] PATRIMONY V

This **workcamp aims** to awaken youth for the traditional building techniques and the surrounding built heritage. It is an Hands-on approach in ancient building techniques, specially lime mortars and plasters, with introductions to raw earth (adobe, rammed earth, CEB, earth plasters) and ceramics (modelling, raku firing, other firing techniques). During the camp we will act in public structures repairing, maintaining and co-creating new assets on these buildings, focusing on the Castle's Kiosk and Abancandrómo.

Cooperation, communication, self esteem, problem solving, risk evaluation, leadership and decision making are competences that we will work together while (re)building for and with the local community.

We will have a detailed schedule that will be questioned and adapted every day according to our group needs.

The working environment is relaxed, in the heart of a strong artistic influenced city. Silkprint, ceramics, sculpture, play music, dance, electronics and new technologies are other activities that you can see around and possibly try out.

Work Activities: Learning how to apply and repairing traditional lime plasters and paintings; Applying reinforced waterproof membrane in OC facilities; introduction to traditional handmade fired and raw earth, clay preparation and application; Repair traditional terracotta brick structures (remove vegetation, cleaning and apply natural waterproof coatings like lime-wash); Cleaning and organize working areas and tools used during the activities; You will use tools like brushes, trowels, shovels, spatulas to perform tasks like painting, scratching, cleaning, mixing mortar, applying mortar, among other activities.

Leisure Activities: Ceramics - make your own clay project and take it home – from modelling to firing. Group games. Opinion and decision-making round tables. Yoga. Open Air Cinema. Landscape and Heritage walks (Learning about the Montado Landscape, visiting the megalithic heritage and the city of Évora). Concerts of main national artists in the local annual fair. This activities are flexible and may adapt to the participants. A suggested program will be proposed and will be subjected to alterations according to the different wills.

Note: some of the works can be repetitive and hard, it is a hands-on approach and very practical, touching the materials and tools. Knowing your limits and communicating with the monitors is essential in order to adapt the tasks to each volunteer individually. The climate can be extreme in some years, with intense sunny days reaching 40°C, the working schedule will be flexible in order to adapt to the best working hours.

Accommodation/Food (kind of lodgement, number of meals, other services)

Meals: breakfast, lunch, dinner. There will be vegetarian options/main courses. The lunch meals will be at the primary school canteen with option between meat/fish or vegetarian. The dinner is normally vegetarian. There is access to several shared kitchens around our facilities to prepare your snacks. Accommodation: in shared dormitory inside the old convent. We will use the bathhouse from our facilities. There is the possibility to use your private tent in case you prefer more privacy.

Location (you can add a map or a photo of the city)

- What to Bring (personal things) – Everything for your own sleeping comfort. (Minimum: sleeping bag. Advised: ear plugs, pillow), towel and personal care items, sunscreen, comfortable working and sports clothes and shoes, reusable water bottle and a nice hat.)

Taking care of yourself and the ones around you.

Projecto Novas Descobertas (Project New Discoveries) is a non-profit organization with 25 years of experience in eco-social work, offering programs for all ages. Programs include educational and recreational activities on a 43 hectare farm in the western Algarve. PND promotes a deeper connection with nature, practicing values of integration, sustainability and sharing with the aim of ecological and social regeneration. It combines creative learning approaches with traditional knowledge providing new discoveries for all.

To know more visit: www.valedalama.net ; www.projectonovasdescobertas.org

Info about the Camp (aims, tasks and activities – work, leisure and visits)

Be part of the solution and help us educate for a sustainable future. Together, we will plant examples of climate solutions at two educational centers - showing people how to reduce energy use, eat locally, plant seeds, reuse and recycle, save water, redesign landscapes, create and purchase fair trade products and take care of our soils, so that future generations of people can live healthy and sustainable lives.

You can expect to be engaged in the following **activities and tasks**:

Create educational landscapes: Creating spaces that demonstrate climate change solutions on the Associations Campus, including an example of “carbon negative” agroforestry /food production, pedagogical nursery, solar cooking space and a “wellness” workshop” for manufacturing of natural health and beauty products

Showcase sustainable development: Create pedagogical examples of sustainable development techniques at the NEW Loops campus: creating a “carbon capturing bed” by applying low water consumption and soil regeneration techniques; creating an example of low environmental impact by building with bioconstruction techniques.

Event Support: Supporting PND’s environmental education actions on the Open Day with the theme “Climate Solutions” – creating craft and nutritional products, preparing spaces for the event ,creating pedagogical-artistic actions and presentations during the event about sustainable and regenerative lifestyles.

Meal preparation and maintenance of collective spaces: We will assist the chef in preparing meals for the group; rotating daily tasks necessary to maintain health, well-being, and the functioning of the camp - cleaning, watering, composting, etc.

In this camp we will also explore together the relationship between nature and culture, through these **activities**:

Nature Connection: We will have a day out and a few afternoons to visit places in the Algarve that are protected nature areas and places of traditional culture, and have opportunities to do walks, bicycle rides, and canoeing close to the camp.

Group dynamics: We will start and end the day with opportunities for sharing and group decision-making, and everyone will participate in planning events, in observing, presenting, and evaluating the work camp results.

Social and leisure activities: Together we will prepare evening activities; Cultural nights sharing cuisine and culture of participants’ countries; Games nights, and celebrations.

This is an opportunity to empower yourself and get inspired by nature, gaining the skills you need to create a more sustainable world.

Accommodation/Food (kind of lodgement, number of meals, other services)

Accommodation is in tents. Bring your own if you can, if you can’t the project will provide one. There are bathrooms and solar showers.

The project will provide 5 meals per day (breakfast; Lunch; snack; dinner; supper),

Our food ethics is based on following sequence: healthy, local and organic.

As an Association that has programs for all ages, you can expect to share the space with children, youth and elders.

Meeting point *(day, time, period and place)*

3rd of September 2020 - 12 p.m, Lagos PORTUGAL - Bus station

How to reach to....? *(by plane, by bus, by train - timetables, itinerary trip, ticket prices, useful internet address)*

The closest airport is FARO airport. You can also arrive at LISBON airport, but please check bus and train times before buying your plane ticket - it's a long journey and you'll need to plan carefully to avoid arriving late.

Getting here from Faro airport

You can catch the train, bus, or a transfer shuttle. The journey usually takes 2 hours.

Transfer Shuttle: You can research shuttles here: <https://faroairporttransfers.net/> Shared shuttles go directly from the airport to the farm. They can sometimes be more expensive than other transports, but are faster and can bring you to the farm (put in the destination field: EcoResort Vale da Lama, Lagos)

Train & Bus: To get to the train or bus station (located in Faro city center), you'll need to take a bus or taxi from the airport. Bus #16 from the Airport to Faro city center goes about once every hour. You can find trains from Faro to Lagos here:

<https://www.cp.pt/passageiros/en>. There is also regular bus service from Faro bus station to Lagos bus station. More info here:

<http://www.algarvebus.info/003.htm>

Getting here from Lisbon Airport

You can come by bus or train. The journey usually takes 5 hours.

Bus: Take line 2 of the Airport Shuttle Bus to the 7 Rios station. You can research bus times (origem: Lisboa, destino: Lagos) on this website: <http://eva-bus.com/index.php>

Train: Take the metro from the Airport to Oriente train station. You can find train times here: <https://www.cp.pt/passageiros/en>

Info about the Camp (*aims, tasks and activities – work, leisure and visits*)

UrbanAct International Workcamp will gather 12 volunteers to foster community action to contribute for awareness raising activities regarding the sustainable development to prevent climate change in Agualva – Cacém, Sintra . Portugal.

Our **main aims** will be:

- Create a community Eco-Space made of materials that would go to waste, such as tires, wooden pallets, plastic caps,...
- Promote awareness raising activities for the community about sustainable development in "Aqui ao Lado" festival and other opportunities.
- Motivate the participants to contribute in their daily lives for the prevention of climate change after the project.
- Promote the practical participation of youngsters in actions that actively contribute for sustainable development and climate change prevention.

The **main tasks** will be:

- Development and implementation of awareness raising activities for the community about sustainable development and climate change prevention in "Aqui ao Lado" Festival and other places.
- Design, create and decorate a community Eco-Space that will be made of waste materials.
- Environmental protection action in Sintra Mountain natural area.
- Clean up activity of a public park

The work schedule will consist mainly of 5h to 6h a day of practical work activities where the group will work together or in teams. There will be leisure activities such as a visit to a nice place when we go to Sintra,

Free time and a visit to Sintra is also included in the program, so you can rest, take along walk or get to know the community better. We are planning a very dynamic approach for this workcamp, not staying too much time in a place, but also enough time to get to experience different things and environments.

You will be able to contribute to creating a community space and raise awareness about sustainable development. This will impact the city in a very positive way, so you are welcome to participate ☺

Accommodation/Food (*kind of lodgement, number of meals, other services*)

The accommodation will be in bedrooms of 6 people (splitted by gender) in the Quinta da Consolata farm. It is a missionary center for Consolata. They have hosted several of our projects before and here you can get close to nature in an otherwise urban area. The life in the farm goes peacefully as the busy city surrounds it. Here there will be a community meal area and bathrooms also divided by gender. There is plenty of space if you wish to relax a bit. It is also close to the train station of Agualva – Cacém (10 min walk). The food will be prepared by the cooks of the farm but there will be also space for the participants to prepare some of the meals.

Location (*geo-referencing, you can add a map or a photo of the city*)

Agualva – Cacém is an urban area in the municipality of Sintra close to Lisbon (the capital of Portugal). You can expect a lot of buildings and people. The population in this area is quite interesting since we have a big diversity of nationalities and backgrounds in the city, it is worth the visit. From here you can get quickly to the beach, to the mountain, the airport and the capital.

Practical Information

- **Arrival date** - 1 July 2020
- **Nº of volunteers** – 12
- **Work language** – English
- **Insurance** (kind of covers) – personal accidents and social responsibility
- **What to Bring** (**personal things**) – Comfortable clothes and shoes (according to the climate conditions) reusable water bottle, sleeping bag and flash light.

No Fees

Conditions of participation (*internal rules of the camp*)

Respect everybody and have an open mind.

In the place where we will be hosted, there are people living, community vegetable gardens, a farm with animals and many more

things. This space has rules to ensure that everybody gets along and has a nice experience.

Everybody will be asked to help with the tasks of the group in order to create a fully functioning team ☐
You are welcome if you wish to impact a community and contribute with your time for the goal of the project.

Meeting point (day, time, period and place)

Accommodation/Food (kind of lodgement, number of meals, other services)

Participants will sleep in a sports complex in Lousada, in shared rooms with sleeping mattresses. There will be separated rooms for boys and for girls. The complex has locker room with hot water showers also separated by gender.

Participants have to bring their own towels and hygiene products. The organization will provide breakfasts, lunches, break snacks, and dinners. Lunches and dinners are prepared/cooked by the municipality's staff and served at the sports complex canteen, but some lunches will be served in the field (sandwiches, fruits, etc.). All meals are vegetarian.

	PT-PO-24-20	Windmills of Change	15-26 July 2020	

Info about the Camp Organization (name, aims, main activities, internet address, *you can add the organization logo*)

Azes Valboenses is a youth association that promotes the adoption of healthy and sustainable lifestyles that respect biological and social diversity. We develop local and community activities (up-cycling workshops, sustainable cooking, hiking, cultural activities, film screenings) and international activities (exchanges, training and volunteering) promoting the participation of young people in the life of the community but also promoting new experiences and learning that contribute to a more balanced and fair world. Have a look on: <https://www.facebook.com/azesvalboenses/>

Info about the Camp (aims, tasks and activities – work, leisure and visits)

The **main objective** of the Windmills of Change work camp is the rehabilitation of old mills along a footpath in Gondomar and the rehabilitation of the route. At the moment the area is being rehabilitated by the community and the work camp will help in this task. The **main tasks** of the volunteers will be the reconstruction of the mills, rehabilitation of the walkway and the construction of a dry bathroom using natural construction techniques. The participants will build a solar oven with reused materials, and elaborate the signs for the trail with information about local fauna and flora.

The work camp is not only about working, so participants will have the opportunity to learn about living in contact with nature, learning about birds by bird watching, going to the river for swimming and enjoying, visit the city centre of Gondomar and Porto, practice volleyball and other outdoor activities, learn to make ecological hygiene products, and many other moments of sharing, fun and entertainment. The group will also play night games together, sing by the fire, and enjoy themselves spending time relaxing together.

Accommodation/Food (kind of lodgement, number of meals, other services)

Breakfast, lunch and dinner will be provided by the organisation, there are supermarkets and coffeshops around. The participants will be hosted in the association's headquarters sleeping in a big room in sleeping bags and part of the camp in tents.

Location (you can add a map or a photo of the city)

The workcamp will happen in Gondomar, in the outskirts of Porto. Porto is the second biggest city in Portugal but Gondomar still has some rural parts where we can enjoy contact with nature. The headquarters of Azes are in Valbom, 10 min away from Porto and the work we will develop will happen in Jancindo (Foz do Sousa) where the windmills are located.

Practical Information

- **Arrival date** – 15 July 2020
- **Departure date** – 26 July 2020
- **Nº of volunteers** – 20
- **Work language** – English
- **Insurance (kind of covers)** – All participants will be covered by an insurance for accidents.
- **What to Bring (personal things)** – Tent, flashlight, sleeping bag and camping mattress, sunscreen, hat, boots and glove for work, swimming clothes, toiletries, insect repellent, regular medication, comfortable clothes, some warm clothes for the night.

No Fees

Conditions of participation (internal rules of the camp)

The participants must attend to the whole program of the camp and collaborate with the other participants. The consumption of alcohol and/or any kind of drugs are not allowed during the camp activities. Every participant must respect the other participants and any kind of violence or discrimination (physical, verbal, etc) is not allowed.

Meeting point (day, time, period and place) 15 of July up until 21:00 at Azes Valboenses Headquarters in Rua Alexandre Herculano 158, 4420-369 Valbom. If you need to arrive after that hour please contact +351915993673

How to reach to....? (by plane, by bus, by train - timetables, itinerary trip, ticket prices, useful internet address)

The best way to get to Valbom is by plane to the city of Porto (Francisco Sá Carneiro Airport). There are several airlines with low fares, including Ryanair. From the airport there is a metro available, take the metro to Trindade station and then change to one that goes to Campanhã station. From there you can take a bus to Valbom (ETG bus nº01) and get off at the stop near the firefighters. The association's headquarters are 1 min away on foot.

Another way to travel is by plane to Lisbon and then by bus or train to Oporto and get to Campanhã station, from there just follow the steps described above.

	WORKCAMP INFOSHEET - 2020			
	Workcamp Code	Camp Name	Dates	
	PT-VR-18-20	From World to the Valley!	03-14 August 2020	

Info about the Camp Organization (name, aims, main activities, internet address, you can add the organization logo)

'Associação Inspira!' is a youth non-governmental organization focused on environmental education and youth intervention. Evolving from an informal group, we are over 50 youth associates, working for the social and ecological development of our region and the empowerment of its young people. We aim to socially improve education and opportunity on youngsters and young adults, by stimulating their sense of initiative and entrepreneurship. For that, we use non-formal education and intervention tools to promote actions on social inclusion, gender equality, employability, volunteer work, structured dialogue and intercultural education, mobilizing young people to make a change in our region paradigm.

Info about the Camp (aims, tasks and activities – work, leisure and visits)

In this workcamp we are gonna help recover an abandoned Ecological park. The park was built and then ignored by the municipality and is now being consumed by the nature, the planted trees are dying, the animals starving, all the infrastructures falling and invading trees taking advantage of the place, raising the risk of fire, that would be the end of the park.

The group of volunteers will **work** in the recovery of the park, cutting the invading bushes and trees, cleaning all the mess and garbage from the artificial lake, fixing and painting the falling wooden structures, building new ones, taking care of the abandoned animals, making a storage of food for those animals, cleaning the old drying trees and planting new ones, building new labels for the botanical park and mostly organizing educational campaigns for the park in the local population, to call back attention to it.

On the **free time**, you will have the chance to visit and enjoy the roman town of Chaves, where everything is history, the mountain landscapes are awesome and summer is booming with young people from all the country. We will have night programs for summer concerts festivals. There will be a big music festival on the first week of August which you can join, also a lot of social events going on on this time of the year. Plus, during the daytime free periods you can visit the local museums, in which we will organize a free tour with our municipality, together with a program for hiking on the wild nature of our mountains.

Accommodation/Food (kind of lodgement, number of meals, other services)

Participants will stay in tents in the camping park nearby, there will be hot showers and swimming pools to use. We will provide with all the meals, breakfast, lunch, snacks and dinner.

Location (you can add a map or a photo of the city)

Chaves, on the northern hill region of Portugal, just across the border with Spain and Galicia.

How to reach to....? *(by plane, by bus, by train - timetables, itinerary trip, ticket prices, useful internet address)*

Arriving to Chaves is not always easy, as the connections sometimes are complicated and we don't have a train line. Best way to do it is by bus.

From Porto is easy and simple, just by taking a bus in Rede Expressos (<https://www.rede-expressos.pt/>). It's quite straight but, sometimes, you have to change buses in Vila Real (please ask the driver!). Bus Porto - chaves is around 14€ (12€ if you have your student card with you!).

From Lisbon it is a 6 hour bus trip with not so regular departure time options. Best way is to pick the bus in 'Sete rios station, from Rede Expressos (<https://www.rede-expressos.pt/>). If you rather go to Porto first, you can book a train in cp.pt. If booked in advance it is quite cheap (10€), otherwise it gets very expensive and best option is also to take a bus. Bus Lisbon - Chaves is around 23€ (20€ if you have your student card with you!).

Please, address us if you need to know the bus timetables and where to catch it!

From Madrid you can take a bus or train to Verín, our twin city in Spain. Since Chaves sits just across the border with Galícia, it is quite easy to reach our spanish neighbouring town. Please research the best and cheapest options to go from Madrid to Verín, we can also help you. From Verín we can pick you up by car!

Info about the Camp Organization

In general WAVEMOMENT - Youth Association promotes musical, cultural, sports, nature protection and solidarity activities. We promote musical workshops, courses of musical expression, contests of musical talents, among others. We founded several musical groups such as: a guitars orchestra, a rock band and a regional youth music group. We promote a project named "Solidary Mission", we develop activities

such as visiting elderly homes and prisons in Vila Real with one of the musical groups, offering music and food and hygiene items of first necessity. We develop nature protection activities with innovative projects, using the global idea of geocaching and coordinate school awareness in secondary schools in Vila Real about this theme.

Information about the Camp:

Objectives:

"Our Planet, Our Home" project is based on sustainable development against climate change, specifically in the social and environmental field. This international working camp aims to be a multidisciplinary project.

This project works with the following topics: LEARN, CLEAN, REDUCE, REUSE, RECYCLE and AWARENESS.

Each of these themes will have specif tasks that you can read below.

Participants stay in a house in the middle of nature, in the Parque Florestal de Vila Real, in a healthy environment, where they can implement sustainable actions throughout the days such as **recycling**, **saving water** and **electricity**, among others.

Tasks and Activities:

- Watch several videos and short formative films in order to understand how man is affecting the planet with pollution and the waste;
- Play and reflect educational games about the environmental footprint of each person and activities about cleaning and protection of forests;
- Discover forests and green parks around the city and clean some spaces;
- Develop activities like urban garbage cleaning of the city streets (like cleaning cigarettes put out on the floor, papers and plastics in the streets floor...)
- Participants will be invited first to reduce at maximum their waste during the week (reduce the use of plastics, papers and cans...) then to reuse their garbage and the garbage from the forests, green park and the city. If this isn't possible, then they will recycle the waste using our recycling bins (we will ask them to save the waste they create so that at the end of the project they can observe the amount they produced);
- Construct materials for everyday life (like ashtrays, pen holders, candle holders, plant pots...) and some musical instruments that will be used in an artistic show in the main street of Vila Real, presented to a big audience, reusing the waste.
- We seek to raise awareness of the importance of protecting our planet through the artistic show;
- We will involve population in the activities. We will interview people in order to surveying people's environmental footprint.
- After the interviews, produce several videos in order to awareness information about the project theme;
- Preparation of posters and flyers (with recycled materials) to raise awareness about Global Warming.

Expectations:

- These days in Vila Real the participants can expect moments of entertainment with several activities, going to pool, exploring the city through a peddy-paper and having contact with the Vila Real population, making a survey of the environmental footprint of the population through interviews.
- At the end of the project, participants will receive a diploma of participation and will be able to apply the knowledge obtained in their home countries.

Accommodation/Food

- Kind of lodgement: 2 rooms: one is bigger, the other one is smaller; It's possible to camp as well outside the building.
2 bathrooms with shower, one for women and one for men;
A kitchen and a lounge room, in a rustic setting;
It's located 5 minutes walking from the city center, 1 minute from the pool and the city park.
- Number of meals: 4 (Breakfast, Lunch, break and dinner).
Breakfast will be served to participants every day at 9:30 am and they will have lunch and dinner in snack-bars and restaurants. They can also use the scout's house kitchen to cook for the intercultural night.

INOVERTERRA – Association for Local Development is a non-profit youth association in Vila Pouca de Salzedas, Tarouca, Viseu, Portugal. Created in January 2012 to reverse the tendency of abandonment of rural areas, seeking to raise awareness among the population about the "economic power" and capital gains they hold. Its aim is, on one hand, to build a solution to combat the crisis through development of rural environment and green economy. On the other hand, the base of this association is founded in the valorization of the resources of Earth and Nature that surrounds us, resources that have great potentialities to develop the rural world and, when innovating, to attract young population to this cause. INOVERTERRA has outlined a set of objectives that have guided its activity since its inception: promoting rural areas with the aim of repopulating, establishing and rejuvenating peasant populations; Fostering sustainable development and socio-economic dynamism through job creation; Revitalize and promote local heritage and activities, enhancing green, cultural and religious tourism; To provide rural areas with useful services for the community through technical assistance and agricultural advisory services; Promote the return of interest in agriculture. Info about the Camp (*aims, tasks and activities – work, leisure and visits*)

The valorization of one of our main productions, the Elder, focusing mainly on its flower and berry, with the increasing discovery of its value, mainly health properties, allied to our mission, intends to develop the potential of the region that was once little considered.

Our main concern is environmentally friendly tasks, always elevating the region, using Elder's products and the people of the land as well as the advances in what concerns people's quality of life. We aim at value-added Elder products, aligned with current market trends, innovative activities to turn people's eyes, mainly young ones, to the land and its potential. This camp provides volunteers with a cultural enrichment and vast leisure activities, like social interaction with the habitants of s. Joao Tarouca, and practical experience, mainly the recognition, cultivation, maintenance, harvesting, drying and use of medicinal and aromatic herbs, such as the Elder plant, its flower and berry. Some leisure activities: welcoming party, traditional party Saint Bernard, night game, gastronomic show and workshop, musical night, stars observation and closing party.

Accommodation/Food (*kind of lodgement, number of meals, other services*)
